Professional Summary

Results-driven Senior Full Stack Software Engineer with 5+ years of experience designing, scaling, and maintaining high-performance web platforms. Deep expertise in Python, React, PostgreSQL, and distributed cloud microservices with a track record of improving latency by 35% and mentoring junior engineers.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, Go

Frameworks & Libraries: React, Flask, FastAPI, Node.js, Express, Tailwind CSS

Databases & Storage: PostgreSQL, MySQL, Redis, MongoDB

DevOps & Tools: Docker, Git, GitHub Actions, CI/CD, AWS (S3, EC2), Linux, Nginx

Work Experience

Senior Software Engineer • CloudScale Labs (2023 – Present)

- Architected high-throughput REST APIs in Python (FastAPI/Flask) serving 2.5M daily requests with 99.98% uptime.
- Spearheaded migration of legacy monolithic frontend to React and TypeScript, accelerating page load speeds by 42%.
- Integrated automated CI/CD testing pipelines with GitHub Actions, cutting release cycles from weekly to daily.

Full Stack Developer • Nexus Interactive (2021 – 2023)

- Developed interactive customer portal features using React and Node.js for 80,000+ active enterprise users.
- Optimized PostgreSQL query execution plans and database indexes, reducing median endpoint latency by 28%.
- Collaborated with UI/UX designers to implement WCAG 2.1 AA accessible design system components.

Education

Bachelor of Science in Computer Science • University of California, Berkeley (2017 – 2021)

Graduated Cum Laude • Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Systems, Distributed Computing.

Key Projects

Distributed Task Queue Engine (2024)

Built an in-memory asynchronous task runner in Python and Redis supporting priority scheduling, exponential retry policies, and real-time dashboard observability.

DevPulse Analytics Platform (2023)

Developed an open-source GitHub workflow telemetry visualization dashboard using React, TypeScript, and FastAPI, starred by over 600 developers.

Certifications

- AWS Certified Solutions Architect – Associate (Amazon Web Services, 2024)
- Meta Certified Front-End Developer Specialization (Meta / Coursera, 2022)

Achievements & Honors

- 1st Place Winner, CalHacks Open Cloud Hackathon (2020) out of 150 competing teams.
- Dean's Honor List for 6 consecutive semesters at UC Berkeley.
